SUMMARY

I am a frontend developer looking for an entry level position. I like to make websites that are easy to navigate . With more than 50% (>75% in India) accessing web via mobile, I make sure that websites are **responsive** and **mobile-friendly**. Currently I am learning Nodejs and Express to become a **MERN stack developer**.

PROJECTS

News website

🌐 <https://yogesh-gautam.netlify.app/>

It is a fully functional modern SPA website made using Reactjs

Text Utils

🌐 <https://yogesh-gautam.netlify.app/>

It helps to edit text and get info about text. made using react.
